EXPLORING INNOVATION & HERITAGE

Nestled in the heart of America's expansive landscapes, Bullet Weights has risen from a modest beginning to become a beacon of innovation and quality in the global fishing industry. Our journey began in 1970 in Grand Island, Nebraska, when Larry Crumrine, an inventive engineer and passionate angler, crafted a sinker that would revolutionize fishing techniques across the world. His pioneering 'bullet'-shaped sinker was specifically designed to glide seamlessly through heavy cover, thereby significantly enhancing the angler's experience. This ingenious creation laid the foundation for what would evolve into one of the most respected names in fishing tackle manufacturing.

Under the stewardship of the Crumrine family, Bullet Weights quickly captured the hearts of the local fishing community and garnered attention across regional and national stages. The small startup transformed into a formidable presence in the fishing industry, marked by its commitment to quality and innovation.

As the company expanded, so did our product line. In 1995, responding to the growing environmental and performance needs of anglers, Bullet Weights introduced Ultra Steel® and Ultra Tin™ products. These alternatives not only addressed the

concerns associated with traditional lead sinkers but also offered unique performance benefits, making them favorites among environmentally conscious anglers.

Today, Bullet Weights is proud to stand as one of the largest sinker manufacturers in the world, offering an unmatched selection of fishing sinker products. Our commitment to innovation continues to drive us forward, as evidenced by our diverse product offerings that cater to all fishing disciplines. From freshwater bass fishing to deep-sea adventures, our products are designed to improve the efficiency and enjoyment of anglers everywhere.

In this catalog, you will discover a range of products that embody our heritage of quality and innovation. Each page showcases our dedication to enhancing the fishing experience through meticulously designed weights that meet the rigorous demands of modern anglers. Our products, whether made from the groundbreaking tungsten material or the classic lead, are crafted to offer superior performance and minimal environmental impact.

As you browse through our 2025 offerings, we invite you to explore the rich history and innovative spirit that define Bullet Weights. Our products have become integral to fishing cultures around the world, a testament to our enduring commitment to excellence. Whether you are a seasoned angler or just starting out, Bullet Weights is here to ensure that every fishing adventure is productive and enjoyable.

Wally Marshall AKA MR. CRAPPIE

started making waves in the fishing world back in '87 when he snagged first place at Texas's very first crappie fishing tournament. Since then, he's turned his passion into a career, crafting some of the top-notch crappie fishing gear out there. His Mr. Crappie brand is a household name among anglers, especially known for top-tier rods, reels, lures, hooks, floats, and fishing lines. Recently, he teamed up with Bullet Weights to roll out an impressive lineup of Mr. Crappie Troll Tech sinkers and crappie rigs, all designed to enhance the fishing experience for today's crappie enthusiasts.

Wally's been a regular on the crappie tournament trail for over a quarter-century, reeling in victories in numerous states. For Wally, crappie fishing isn't just a sport—it's been a part of his life from his early days as a kid right up to now. It's clear that his lifelong fascination with crappie fishing has shaped his career and continues to fuel his innovation in fishing gear.

His commitment goes beyond just catching fish; he's dedicated to fostering a community of anglers. Through seminars, personal appearances at fishing shows, and even on social media, Wally shares his wealth of knowledge about crappie fishing. He's not just about promoting his products; he's passionate about educating people on better fishing techniques and conservation practices. This dedication has made him a beloved figure in the fishing community, particularly in the Midwest, where he's inspired many to take up fishing as a hobby and respect the aquatic environments they fish in.

MR. CRAPPIE ADD-A-HOOK

Add-A-Hook by Mr. Crappie eliminates the need for knots, making fishing setups quick and secure. Just wrap your line around the ends, snap it in, and you're set for a perfect hook every time. Ideal for quick double fishing rigs, it's a must-have for any angler looking to simplify their setup.

MR. CRAPPIE TROLL-TECH CRAPPIE RIGS

The design of the Troll-Tech crappie rig allows anglers to use one complete rig to Tight Line Troll, Spider Rig, Slow Troll or vertical fishing techniques. The Troll-Tech crappie rig is easy and quick use, you can tie one on in seconds ready to fish. The Troll-Tech crappie rig is designed to be able to catch two at a time!! The top section on the Troll-Tech crappie rig spins 360 degrees that will prevent tangles and line twist while trolling or vertical fishing.

MR. CRAPPIE CRANKBAIT DOWN RIGGERS

The heavy weight on the Mr. Crappie Troll Tech Crankbait Downrigger Weight carries a crappie crankbait down deep and keeps it at a more constant depth. The Crankbait Downrigger consists of an 11-inch wire arm with a weight embedded approximately two-thirds from the top. The main fishing line is tied directly to a loop at the top of the wire. A crappie crankbait with a four-foot fishing line leader is tied to the swivel at the bottom of the wire. The Mr. Crappie Troll Tech Crankbait Downrigger Weights by Bullet Weights come in two and three ounce sizes with two per pack.

TUNGSTEN

The original Bullet Weight, now crafted in Tungsten, marks a significant innovation in fishing technology. Tungsten, known for its high density, allows these weights to be approximately fifty percent smaller than their lead counterparts. This reduction in size translates to enhanced performance in dense vegetation and heavy cover, reducing the likelihood of snags and hang-ups.

Available in an array of colors—including Natural, Transparent Red, Black, Tactical Black, Green Pumpkin, June Bug, and Watermelon—these weights offer versatility to match various fishing conditions and preferences. The smaller size does not compromise the sink rate, making these weights an excellent choice for precision fishing where cover and bottom structure play critical roles.

Professional anglers and recreational fishermen alike will find the Tungsten Bullet Weights to be a valuable addition to their tackle box, combining environmental friendliness with superior functionality. This product is especially suited for those looking to enhance their technique in challenging environments.

TUNGSTEN SCREW-IN WEIGHTS

On the bottom of the tungsten bullet-shaped sinkers is a stainless steel "corkscrew" device that makes it easy to thread on a plastic bait and hold it in place next to the weight, thus eliminating the need to peg the weight which can cause line damage. All of Bullet Weights Screw-In Weights include a plastic insert that is essential to prevent the line from twisting around the corkscrew (which can cut the line) when applying the bait or at hookset.

Available in Natural, Watermelon, Transparent Red, Black

**BULLET
WEIGHTS®**

A silhouette of a fisherman wearing a cap and sunglasses, holding a fishing rod, against a sunset sky with scattered clouds. The fisherman is positioned on the right side of the frame, looking out over a body of water.

ULTRA STEEL

Introducing the next evolution in fishing technology: our Ultra Steel weights. Building on the foundation of our original designs, these weights have been enhanced with Ultra Steel for even better performance. Not only are they longer-lasting, but they also maintain their shape more effectively and exhibit less oxidation over time. The Ultra Steel formulation offers improved snag resistance, cleaner chamfered holes, and significantly less bulk compared to other non-lead materials. Whether you're fishing in fresh water or salt, our Ultra Steel weights provide the durability and efficiency needed to enhance your angling experience.

ULTRA SOUND BOUNCERS

Enhance your fishing efficiency with our cutting-edge Ultra Sound Bouncer. This innovative device incorporates a unique swing-arm design that minimizes tangling while trolling or drifting. Its three-piece rattle chamber is engineered to produce a variety of crisp, clean sounds, effectively attracting fish. Additionally, our exclusive "R" snap eyes provide the convenience of swiftly changing bottom bouncers and leader lines, making it a versatile and indispensable tool for any angler aiming to optimize their fishing tactics.

ULTRA STEEL INTERCHANGEABLE JIG KITS

Experience unmatched versatility with the Bullet Weights Ultra Steel Interchangeable Jig. This innovative jig allows for effortless switching of weights, colors, or grubs without the need for retying. Simply attach one of the premium custom hooks and slide on your chosen weight. The secure hood locks the weight in place, enabling quick changes in mere seconds. The jig supports three sizes of non-toxic, solid steel weights available in five popular colors, complemented by four enticing grub colors and three shades of laser-sharp hooks. This level of customization and ease of use makes the Ultra Steel Interchangeable Jig a top choice for anglers seeking flexibility and efficiency in their fishing tackle.

ULTRA STEEL WALLEYE SINKERS

The Ultra Steel Walleye Sinker is the top performer in its class, offering unmatched functionality and effectiveness. This sinker allows anglers to switch weights quickly without the need to re-rig, enhancing convenience and reducing downtime. Its adjustable trolling angle minimizes line drag, and the exclusive tapered back design ensures the sinker maintains an optimal angle in the water. This strategic positioning keeps the sinker within the strike zone even while drifting, making it a superior choice for targeting walleye efficiently.

ULTRA STEEL CAROLINA QUICK-RIGS

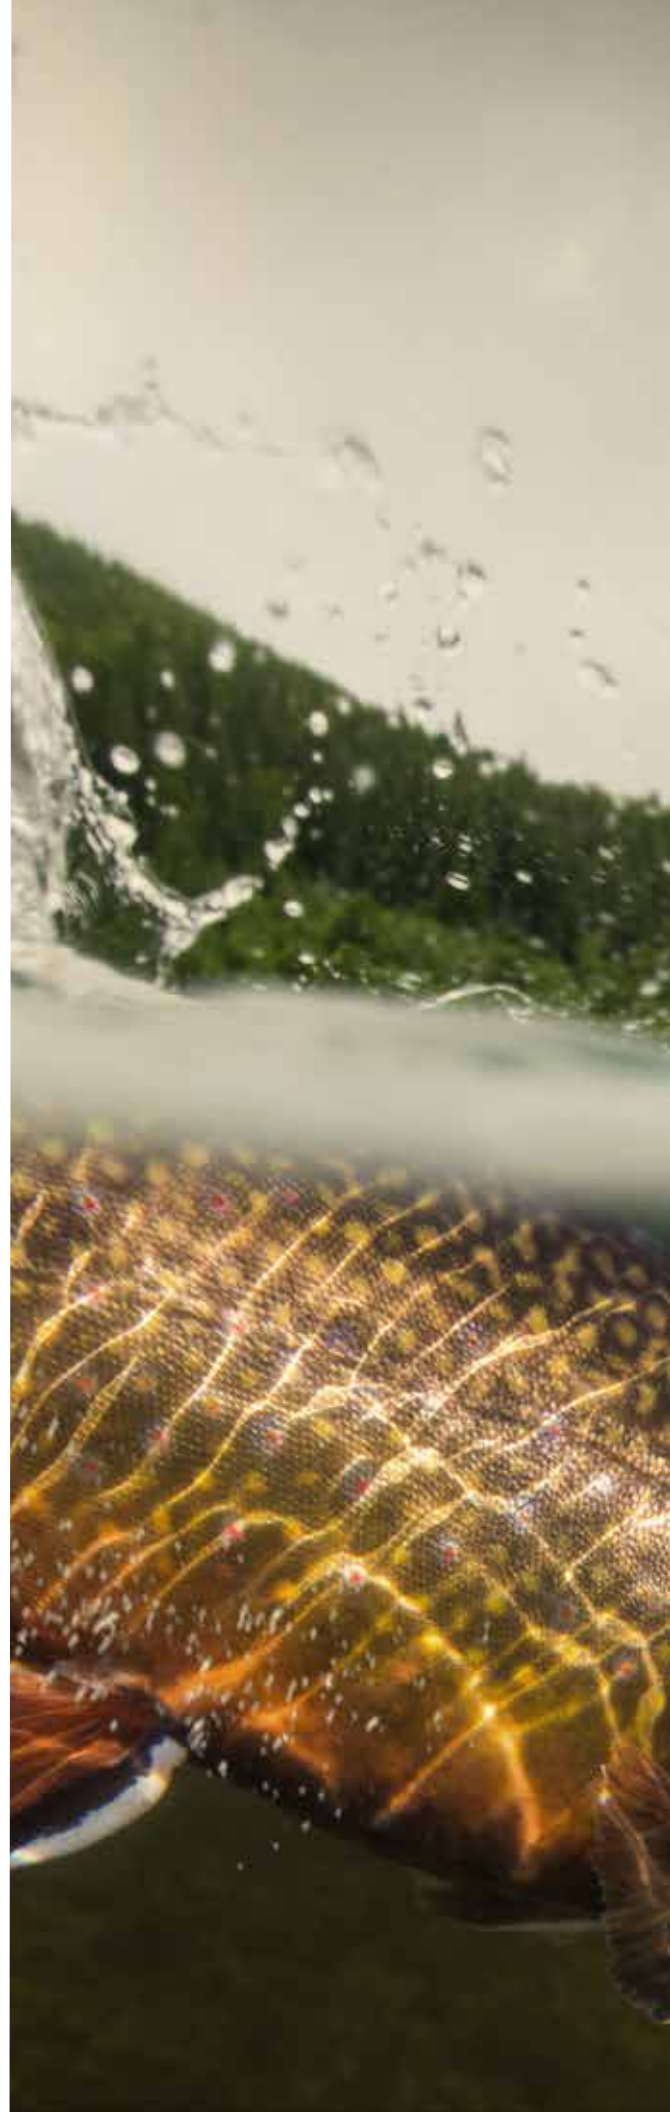

The innovative three-piece Ultra Steel rattle chamber is expertly designed to emit a variety of clicking sounds that effectively attract fish. This feature is enhanced by the sinker's streamlined shape, which significantly reduces the likelihood of snags, allowing for smoother fishing experiences. Additionally, the sinker includes clip-on connectors that attach instantly to the swivel, providing robust protection for the knot and negating the need for beads. This thoughtful design streamlines setup and maximizes efficiency, making it an essential tool for any angler's tackle box.

ULTRA STEEL CAROLINA KITS & WEIGHTS

Our Ultra Steel Carolina weights offer a lead-free alternative to our traditional brass Carolina weights. When paired with a glass or steel bead, these weights produce significantly more noise than their lead counterparts, enhancing their effectiveness. Each Carolina kit is comprehensively equipped with swivels, hooks, and sinkers—everything you need to set up your Carolina rig efficiently. This kit simplifies the process, ensuring you're ready with a high-performing, environmentally friendly option.

**BULLET
WEIGHTS®**

BULLET WEIGHTS

The original Bullet Weights worm sinker, the pioneering product that established Bullet Weights as a leader in the fishing industry, is renowned for its effectiveness in Texas Rig fishing and various other snag-free applications. Designed to streamline the fishing process, this iconic sinker revolutionized how anglers approach soft plastic baiting, particularly in cover-heavy waters. Its unique shape allows it to glide through water and vegetation, minimizing snags while delivering baits precisely where they need to go. Ideal for both novice and experienced anglers, the original Bullet Weights worm sinker remains a fundamental component in tackle boxes worldwide, celebrated for its versatility and reliability in enhancing fishing techniques.

SCREW-IN SINKERS

Screw-in weights are meticulously crafted for anglers who prefer to secure their weights directly to their setups, especially when utilizing a Texas rig. These weights feature an innovative corkscrew device that firmly anchors the plastic bait to the weight, eliminating the need for potentially bait-damaging pegs or toothpicks. This design not only preserves the integrity of the bait but also enhances the presentation and effectiveness of the rig, making it a superb choice for serious bass anglers.

WEIGHTS

TORPEDO WEIGHTS

Utilize the included rubber T-stop with our torpedo weight to position it precisely along the line as needed. The soft rubber stop is designed to prevent line abrasion, ensuring your setup remains intact. Additionally, the torpedo weight's distinctive shape is engineered to avoid snags, enhancing both the durability and functionality of your fishing rig. This combination offers a seamless fishing experience with optimized control and minimal line damage.

T-STOPS

T-Stops are designed to securely peg your sinker at any desired position along the fishing line. Their soft material is crafted to prevent any abrasion to the line, ensuring durability and functionality. The small T-stop accommodates sinkers with a center hole diameter up to 0.062 inches, while the large size is suitable for diameters up to 0.092 inches, providing versatility for different fishing setups.

ROUND SPLIT SHOT

As one of the most commonly utilized types of fishing weights, soft lead sinkers remain a crucial component in every tackle box. Their malleable lead composition makes it straightforward to attach them to the fishing line, facilitating quick adjustments and setups.

ZIG-ZAG SPLIT SHOT

Zig-Zag Split Shot looks similar to round split shot by with a "zig-zag" shaped slot cut into the sinker. This allows the weight to grip the line better and stay in place. Made from soft leads allowing the weights to easily be placed on the line.

EGG SINKERS

For weedless performance, few sinkers have a reputation like the famous egg sinker. Ideal for catfish, it's also a great all-around sinker for a huge variety of fishing applications.

DOUBLE SWIVEL EGG SINKERS

Swivel Egg sinkers are casted with a swivel on each end of the sinker. The swivels help to prevent line twists while fishing. Double Swivel Egg Sinkers can be used in both fresh and saltwater applications.

NO-ROLL SINKERS

No Roll Sinkers are quickly becoming the favorite choice for river fishermen. The hole through the center of the sinker allows your line to slide like an egg sinker. The flat sides keep the sinker from rolling across the bottom of the river.

RUBBER GRIP SINKERS

The rubber insert holds your sinker in place anywhere on the line, plus it makes it incredibly easy to move your sinker on the line, without retying. It's great for a huge range of fishing applications.

DEPTH FINDERS

Depth finders take the guess work out of setting slip bobbers. Clip the weight to your hook and lower til you hit the bottom. Now that you know the depth of the water, you can place your float where it is needed to keep your bait at the desired level. Depth finders come two per pack in colors chartreuse and orange.

CANNON BALL SINKERS

Cannonball sinkers are highly favored by salmon and steelhead anglers due to their effective design. They come in a range of sizes. Each weight features a brass eye at the top, facilitating easy rigging. The sinker's round shape ensures it descends straight down with minimal resistance, making it ideal for deep water fishing.

NOTES

NOTES

This image shows a full page of blank, lined paper. It features approximately 28 horizontal blue lines spaced evenly across the page, typical of standard notebook paper. The lines are thin and light blue, set against a plain white background. There are no margins, text, or other markings on the page.
